

Risk Enhance

Risk Enhance supports today's Risk Manager by providing both routine and non-routine assistance to help take risk management to the next level of maturity.

"Take your risk management framework to the next level"

The Challenge

Maintaining and optimising the risk management framework to meet the changing needs of the organisation and achieve best practice is one of the most difficult challenges for risk managers. This challenge can arise for a number of reasons including:

- Not all members of the management team are fully engaged.
- Competing priorities - not only for the Executives but also for the Risk Manager resulting in less time available for proactive risk monitoring.
- Budget constraints that make it prohibitive to employ additional resources (recruitment costs, direct employment costs, on-costs, down-time and ongoing training).

InConsult understands the issues and pressures a Risk Manager faces in maintaining an effective risk management program and when striving towards implementing a more mature risk management framework.

The Solution

Risk Enhance is for the Risk Manager. *Risk Enhance* helps Risk Managers optimise their risk management framework. Risk Managers can choose from a number of support services:

- Periodic mentoring to discuss key issues and brain storm possible actions.
- Assistance with specific risk assessments for new services, projects, functions and events as required.
- Supporting the ongoing review and maintenance of the risk register and treatment plan status in consultation with risk owners.
- Providing risk management training for new staff (and/or refresher for existing staff).
- Assistance in preparing quality periodic reports to stakeholders such as the Audit/Risk Committee or Senior Executive Team on current status of risk framework, program and risk register.

Key Benefits

- Enhanced communication and consultation regarding risk management through regular and scheduled meetings and discussion.
- You select the risk management services you need.
- Flexible and tailored to the specific needs of the Risk Manager. We discuss your needs, map out an action plan and agree specific outcomes and deliverables.
- Cost effective because you select the services to meet your needs and budget.
- Access to specialised knowledge, experience and best practice methodologies - AS/NZS ISO31000:2009.
