

Introductory Risk Management Training

Building peoples skills, capabilities and confidence in performing risk management activities across the organisation.

The Challenge

In today's challenging business environment, understanding the importance of risk management and its links to achieving corporate objectives and good governance is vital for all directors, managers and team leaders. The people responsible for making decisions, dealing with issues, embedding effective controls are in the best position to manage risk and a sound understanding of risk management is critical.

Our Solution

Our **Introductory Risk Management Training** is an excellent way to help introduce the basic concepts of risk management to improve people's risk management skills, capabilities and confidence.

The course is designed to help managers and non-risk professionals grasp the basic and most important concepts of risk management using the AS/NZS ISO 31000 risk management standard as the foundation of the course.

Duration

One day. A certificate of attainment is issued upon completion.

Who Should Attend?

People interested in understanding the fundamentals of risk management.

Directors, audit committee members, councillors, senior executives, line managers, team leaders, auditors, actuaries and risk, insurance and finance professionals involved in risk management.

Course Overview

- Fundamentals of risk and uncertainty.
- Outline of the AS/NZS ISO 31000 risk management standard – framework, principles, process.
- Myths and barriers to good risk management.
- Step-by-step process of risk identification, analysis and evaluation and how to apply it in practice.
- How to address risk by identify and evaluating control effectiveness and developing treatments.

The course includes DVD's, games and case studies to make learning fun, effective and memorable.

Participants receive InConsult's Risk Management Workbook.

Participants can claim 6 hours CPE points/hours.

Key Benefits

This course will help:

- reinforce your organisations commitment to risk management and importance of managing risk;
- enhance the quality of risk management processes and activities;
- develop people's capabilities and skills as they will learn how to apply new skills;
- improve the overall effectiveness of your risk management and governance framework as people are engaged and involved.

The course is also available as in-house training, modified to your risk management framework as either one-day or half-day training.
